

2015 Nevada High School Youth Risk Behavior Survey (YRBS): Washoe County Analysis

Contents

INTRODUCTION	1
METHODS	1
PERMISSION STATUS AND RESPONSE RATES	2
SUMMARY HIGHLIGHTS	2
RESULTS	6
PARTICIPANT CHARACTERISTICS	6
Table 1: Demographic characteristics of participating students	6
Table 2: Percentage of high school students who have parents or other adults in family serving on active duty in the military	7
Table 3: Percentage of high school students who qualify for or get free and reduced lunch at school	8
Table 4: Percentage of high school students who made mostly A's or B's in school.	9
SAFETY	10
Table 5: Percentage of high school students who rarely or never wore a bicycle helmet	10
Table 6: Percentage of high school students who rarely or never wore a seat belt.	11
Table 7: Percentage of high school students who rode in a car or other vehicle driven by someone who had been drinking alcohol.....	12
Table 8: Percentage of high school students who drove a car or other vehicle when they had been drinking alcohol	13
Table 9: Percentage of high school students who texted or e-mailed while driving a car or other vehicle	14
VIOLENCE-RELATED BEHAVIORS	15
Table 10: Percentage of high school students who carried a weapon.....	15
Table 11: Percentage of high school students who carried a gun	16
Table 12: Percentage of high school students who carried a weapon on school property	17
Table 13: Percentage of high school students who were threatened or injured with a weapon on school property	18
Table 14: Percentage of high school students who were in a physical fight.....	19
Table 15: Percentage of high school students who were injured in a physical fight	20
Table 16: Percentage of high school students who were in a physical fight on school property.....	21

Table 17: Percentage of high school students who were bullied on school property.....	22
Table 18: Percentage of high school students who were electronically bullied	23
Table 19: Percentage of high school students who did not go to school because they felt unsafe at school or on their way to or from school	24
Table 20: Percentage of high school students who experienced physical dating violence	25
Table 21: Percentage of high school students who experienced sexual dating violence	26
Table 22: Percentage of high school students who were ever physically forced to have sexual intercourse.....	27
Table 23: Percentage of high school students who have ever been hit, beaten, kicked, or physically hurt in anyway by an adult.....	28
Table 24: Percentage of high school students who have ever seen adults in their home slap, hit, kick, punch, or beat each other up	29
EMOTIONAL HEALTH.....	30
Table 25: Percentage of high school students who felt sad or hopeless	30
Table 26: Percentage of high school students who seriously considered attempting suicide	31
Table 27: Percentage of high school students who made a plan about how they would attempt suicide.....	32
Table 28: Percentage of high school students who attempted suicide	33
Table 29: Percentage of high school students whose suicide attempt resulted in an injury, poisoning, or overdose that had to be treated by a doctor or nurse	34
Table 30: Percentage of high school students who did something to purposely hurt themselves without wanting to die, such as cutting or burning themselves on purpose	35
Table 31: Percentage of high school students who ever lived with someone who was depressed, mentally ill, or suicidal.....	36
TOBACCO USE	37
Table 32: Percentage of high school students who ever smoked cigarettes.....	37
Table 33: Percentage of high school students who smoked a whole cigarette for the first time before age 13 years.....	38
Table 34: Percentage of high school students who currently smoked cigarettes	39
Table 35: Percentage of high school students who frequently currently smoked cigarettes	40

Table 36: Percentage of high school students who smoked more than 10 cigarettes per day.....	41
Table 37: Percentage of high school students who usually obtained their own cigarettes by buying them in a store or gas station	42
Table 38: Percentage of high school students who tried to quit smoking cigarettes during the 12 months before the survey	43
Table 39: Percentage of high school students who currently used smokeless tobacco.....	44
Table 40: Percentage of high school students who currently smoked cigars	45
Table 41: Percentage of high school students who currently used tobacco	46
ELECTRONIC VAPOR PRODUCT USE	47
Table 42: Percentage of high school students who ever used electronic vapor products	47
Table 43: Percentage of high school students who currently use electronic vapor products	48
ALCOHOL USE	49
Table 44: Percentage of high school students who ever drank alcohol.....	49
Table 45: Percentage of high school students who drank alcohol for the first time before age 13 years	50
Table 46: Percentage of high school students who currently drank alcohol	51
Table 47: Percentage of high school students who recently participated in binge drinking.....	52
Table 48: Percentage of high school students who usually obtained the alcohol they drank by someone giving it to them	53
MARIJUANA USE	54
Table 49: Percentage of high school students who ever used marijuana.....	54
Table 50: Percentage of high school students who tried marijuana for the first time before age 13 years	55
Table 51: Percentage of high school students who currently use marijuana.....	56
DRUG USE	57
Table 52: Percentage of high school students who ever used cocaine	57
Table 53: Percentage of high school students who ever used inhalants	58
Table 54: Percentage of high school students who ever used heroin	59
Table 55: Percentage of high school students who ever used methamphetamines	60
Table 56: Percentage of high school students who used ecstasy	61
Table 57: Percentage of high school students who ever used synthetic marijuana	62

Table 58: Percentage of high school students who currently use synthetic marijuana	63
Table 59: Percentage of high school students who ever took steroids without a doctor's prescription	64
Table 60: Percentage of high school students who ever took prescription drugs without a doctor's prescription	65
Table 61: Percentage of high school students who currently take prescription drugs without a doctor's prescription	66
Table 62: Percentage of high school students who ever injected any illegal drugs .	67
Table 63: Percentage of high school students who were offered, sold, or given an illegal drug by someone on school property	68
Table 64: Percentage of high school students who ever lived with someone who was a problem drinker, alcoholic, or abused street or prescription drugs	69
SEXUAL BEHAVIORS	70
Table 65: Percentage of high school students who ever had sexual intercourse	70
Table 66: Percentage of high school students who had sexual intercourse for the first time before age 13 years	71
Table 67: Percentage of high school students who had sexual intercourse with four or more persons during their life.....	72
Table 68: Percentage of high school students who were currently sexually active .	73
Table 69: Percentage of high school students who drank alcohol or used drugs before last sexual intercourse	74
Table 70: Percentage of high school students who used a condom during last sexual intercourse	75
Table 71: Percentage of high school students who used birth control pills before last sexual intercourse.....	76
Table 72: Percentage of high school students who used Depo-Provera	77
Table 73: Percentage of high school students who used birth control pills, Depo-Provera	78
Table 74: Percentage of high school students who used both a condom and birth control pills, Depo-Provera	79
Table 75: Percentage of high school students who did not use any method to prevent pregnancy during last sexual intercourse	80
Table 76: Percentage of high school students did not have sexual contact, who had sexual contact with the opposite sex, and who had sexual contact with the same or both sexes	81
Table 77: Percentage of high school students who were heterosexual (straight), gay or lesbian, bisexual, or not sure.....	82

Table 78: Percentage of high school students who have ever been tested for HIV	83
DIET	84
Table 79: Percentage of high school students who did not eat fruit or drink 100% fruit juices	84
Table 80: Percentage of high school students who ate fruit or drank 100% fruit juices one or more times/day	85
Table 81: Percentage of high school students who ate fruit or drank 100% fruit juices two or more times/day	86
Table 82: Percentage of high school students who ate fruit or drank 100% fruit juices three or more times/day	87
Table 83: Percentage of high school students who did not eat vegetables	88
Table 84: Percentage of high school students who ate vegetables one or more times/day	89
Table 85: Percentage of high school students who ate vegetables two or more times/day	90
Table 86: Percentage of high school students who ate vegetables three or more times/day	91
Table 87: Percentage of high school students who did not drink milk	92
Table 88: Percentage of high school students who drank one or more glasses/day of milk	93
Table 89: Percentage of high school students who drank two or more glasses/day of milk	94
Table 90: Percentage of high school students who drank three or more glasses/day of milk	95
Table 91: Percentage of high school students who did not drink soda or pop	96
Table 92: Percentage of high school students who drank soda or pop one or more times/day	97
Table 93: Percentage of high school students who drank soda or pop two or more times/day	98
Table 94: Percentage of high school students who drank soda or pop three or more times/day	99
Table 95: Percentage of high school students who did not eat breakfast	100
Table 96: Percentage of high school students who ate breakfast all 7 days	101
Table 97: Percentage of high school students who go hungry because there is not enough food in the house	102
Table 98: Percentage of high school students who visited a dentist	103

PHYSICAL ACTIVITY	104
Table 99: Percentage of high school students who did not participate in at least 60 minutes of physical activity on any day	104
Table 100: Percentage of high school students who were physically active at least 60 minutes/day on 5 or more days.....	105
Table 101: Percentage of high school students who were physically active at least 60 minutes/day for 7 days.....	106
Table 102: Percentage of high school students who played video or computer games or used a computer ^e for 3 or more hours/day	107
Table 103: Percentage of high school students who watched 3 or more hours/day of television.....	108
Table 104: Percentage of high school students who attended physical education (PE) classes.....	109
Table 105: Percentage of high school students who attended physical education (PE) classes daily	110
Table 106: Percentage of high school students who played on at least one sports team	111
Table 107: Percentage of high school students who had 8 or more hours of sleep.....	112
WEIGHT	113
Table 108: Percentage of high school students who were obese	113
Table 109: Percentage of high school students who were overweight.....	114
Table 110: Percentage of high school students who described themselves as slightly or very overweight.....	115
Table 111: Percentage of high school students who were trying to lose weight....	116
RESILIENCE	117
Table 112: Percentage of high school students whose parents or other adults asked where they were going or who they would be with.....	117
Table 113: Percentage of high school students who felt comfortable talking to their friends, a parent or other adult family member, or a teacher or other adult about important life questions.....	118

INTRODUCTION

Priority health risk behaviors (i.e. preventable behaviors that contribute to the leading causes of morbidity and mortality) are often established during childhood and adolescence and extend into adulthood. Ongoing surveillance of youth risk behaviors is critical for the design, implementation, and evaluation of public health interventions to improve adolescent health. The Youth Risk Behavior Survey (YRBS) is a national surveillance system that was established in 1991 by the Centers for Disease Control and Prevention (CDC) to monitor the prevalence of health risk behaviors among youth. In 2015 the Nevada Division of Public and Behavioral Health contracted with the University of Nevada, Reno, School of Community Health Sciences to conduct the YRBS in *all* high schools throughout the state.

The Nevada High School YRBS is an anonymous and voluntary survey of students in 9th through 12th grade in regular public, charter, and alternative schools. The survey asks students to self-report their behaviors in six major areas of health that directly lead to morbidity and mortality, these include:

- 1) Behaviors that contribute to unintentional injuries and violence;
- 2) Sexual behaviors that contribute to human immunodeficiency virus (HIV) infection, other sexually transmitted diseases, and unintended pregnancy;
- 3) Tobacco use;
- 4) Alcohol and other drug use;
- 5) Unhealthy dietary behaviors; and
- 6) Physical inactivity.

The 2015 Nevada High School YRBS: Washoe County Analysis provides data to assess priority health-risk behaviors among high school students in Washoe County; measure progress toward achieving national health objectives for *Healthy People 2020* and other program and policy indicators; and evaluate the impact of broad school and community interventions at the national, state, and local level. It is our intention that these data will be used by education and health professionals, policy makers, community members, and researchers in Washoe County to improve the health of high school students.

METHODS

Sampling, Weighting, and Analysis

The 2015 Nevada YRBS sampling plan was designed to ensure that every eligible student had an equal chance of selection. A two-stage (region and classroom) cluster sample design to produce a representative sample of students in grades 9-12 (all regular public, charter, and alternative high schools). In Washoe County, all schools were selected for participation. In the second sampling stage, classes were selected within schools with the probability based on a required margin of error in the sample size for each region. Intact classes of second period courses were randomly selected from each school. The questionnaire was administered to all students in sampled classes from March to April, 2015.

The 2015 Washoe County YRBS data were weighted at the regional level based on the sex, race/ethnicity, and grade level of students in Washoe County. The weighting process ensured that the estimates accurately represent the entire student population in. Non-response or poor sampling procedures can result in a sample that is not a representative subset of the population; therefore un-weighted results from these samples may not accurately reflect student behaviors and could be misleading. This report only displays weighted results that are representative of Washoe County high school students.

Permission Status and Response Rates

Parental permission is required for YRBS participation. Nevada school districts have two forms of parental permission: 1) active and 2) passive. *Active parental permission* means the students must return a signed permission form indicating their parent or guardian's approval for participation in the survey. *Passive parental permission* means the students take a permission form home and return it only if their parent or guardian does not want them to participate in the survey. The type of permission status varies by district based on school district policy. Active permission requires more time and resources and may reduce the number of students that participate in the survey. In 2015, Washoe County used passive parental permission. Overall, 1,175 youth from 15 schools completed the survey for a response rate of 80.8%.

SUMMARY HIGHLIGHTS

***Please note:** The YRBS *high school* survey uses different questions and response time periods than the *middle school* survey. Very few questions can be directly compared.

Safety

- 22.1% of high school students rode in a car or other vehicle driven by someone who had been drinking alcohol during the past 30 days.
- 8.2% of high school students drove a car or other vehicle when they had been drinking alcohol during the past 30 days.
- 35.3% of high school students texted or emailed while driving a car or other vehicle during the past 30 days.

Violence-Related Behaviors

- 6.5% of high school students were involved in a physical fight on school property during the past 12 months.
- 8.1% of high school students were threatened or injured with a weapon on school property during the past 12 months.
- 20.8% of high school students were bullied on school property during the past 12 months.

- 16.8% of high school students were electronically bullied during the past 12 months.
- 9.0% of high school students did not go to school because they felt unsafe at school or on their way to or from school during the past 30 days.
- 10.8% of high school students experienced physical dating violence during the past 12 months.
- 12.1% of high school students experienced sexual dating violence during the past 12 months.
- 9.1% of high school students were ever physically forced to have sexual intercourse.
- 17.7% of high school students were ever physically abused by an adult.
- 16.6% of high school students ever witnessed physical domestic violence in their home.

Emotional Health

- 33.5% of high school students felt sad or hopeless for 2 or more weeks in a row during the past 12 months.
- 18.8% of high school students seriously considered attempting suicide during the past 12 months.
- 15.4% of high school students made a plan about how they would attempt suicide during the 12 months before the survey.
- 11.7% of high school students attempted suicide during the past 12 months.
- 23.8% of high school students did something to purposely hurt themselves without wanting to die during the past 12 months.
- 32.8% of high school students ever lived with someone who was depressed, mentally ill, or suicidal.

Tobacco Use

- 36.2% of high school students ever tried cigarette smoking.
- 10.3% of high school students smoked cigarettes during the past 30 days.
 - 11.8% of high school students under 18 who smoked during the past 30 days, obtained cigarettes by buying them in a store or gas station.

Electronic Vapor Products

- 53.5% of high school students ever used electronic vapor products.
- 30.1% of high school students used electronic vapor products during the past 30 days.

Alcohol Use

- 65.6% of high school students ever drank alcohol.
- 35.5% of high school student drank alcohol during the past 30 days.
- 19.3% of high school students participated in binge drinking during the past 30 days.

Marijuana and Other Drugs

- 45.2% of high school students ever used marijuana.
- 24.6% of high school students used marijuana during the past 30 days.
- 11.1% of high school students ever used synthetic marijuana.
- 18.3% of high school students ever took prescription drugs without a doctor's prescription.
- 10.6% of high school students took prescription drugs without a doctor's prescription during the past 30 days.
- 10.5% of high school students ever used ecstasy.
- 8.0% of high school students ever used inhalants.
- 27.9% of high school students were offered, sold, or given an illegal drug by someone on school property during the past 12 months.
- 33.8% of high school students ever lived with someone who was a problem drinker, alcoholic, or abused street or prescription drugs.

Sexual Behaviors

- 40.8% of high school students ever had sexual intercourse.
- 13.4% of high school students ever had sexual intercourse with four or more persons.
- 29.8% of high school students were sexually active during the three months before the survey.
 - Among the 29.8% of high school students who were sexually active, 53.6% used a condom during their last sexual intercourse.
 - Among the 29.8% of high school students who were sexually active, 23.6% used alcohol or drugs before their last sexual intercourse.
- 84.3% of high school students self-identified as heterosexual, 3.2% as gay or lesbian, 7.2% as bisexual and 5.3% were not sure.
- 10.1% of high school students had ever been tested for HIV.

Diet

- 4.3% of high school students did not eat fruit or drank 100% fruit juices one or more times per day during the past 7 days.
- 5.5% of high school students did not eat vegetables one or more times per day during the past 7 days.
- 19.5% of high school students did not drink one or more glasses of milk per day during the past 7 days.
- 13.4% of high school students drank soda or pop one or more times per day during the past 7 days.
- 14.7% of high school students did not eat breakfast on any of the past 7 days.
- 5.5% of high school students most of the time or always go hungry because there is not enough food in the house and 11.5% of high school students sometimes go hungry because there is not enough food in the house.

Physical Activity

- 11.2% of high school students were not physically active at least 60 minutes on any day during the past 7 days.
- 33.6% of high school students played video or computer games or used a computer for three or more hours per day on an average school day.
- 20.9% of high school students watched television three or more hours per day on an average school day.
- 60.7% of high school students attend physical education (PE) classes on one or more days in an average week when they were in school.
- 71.9% of high school students got less than 8 hours of sleep on an average school night.

Weight

- 9.9% of high school students were obese.
- 13.9% of high school students were overweight.
- 43.0% of high school students were trying to lose weight.

Resilience

- 77.7% of high school student had parents or other adults who mostly or always asked where they would be going or who they would be with.
- 60.4% of high school students said they had friends and 35.3% said they had a parent or other family member they felt comfortable talking to about important life questions.

RESULTS

Participant Characteristics

Table 1: Demographic characteristics of participating students, by sex, age, grade, and race/ethnicity — Washoe County, Youth Risk Behavior Survey, 2015

		Student Participants ^a	Unweighted %	Weighted %
Total		1175	100%	100%
Sex	Female	631	54.0%	47.9%
	Male	537	45.9%	52.1%
Age Groups	14 years old or younger	130	11.1%	11.4%
	15 years old	259	22.1%	23.5%
	16 years old	352	30.0%	28.6%
	17 years old	324	27.6%	24.6%
	18 years old or older	108	9.2%	11.9%
Grade	9th grade	282	24.3%	25.2%
	10th grade	266	22.9%	26.6%
	11th grade	412	35.5%	24.9%
	12th grade	198	17.0%	22.9%
	Ungraded or other grade	4	0.3%	0.4%
Race/Ethnicity	American Indian/Alaska Native^d	18	1.6%	5.3%
	Asian^d	62	5.4%	0.9%
	Black^d	20	1.8%	2.5%
	Native Hawaiian/Pacific Islander^d	20	1.8%	1.3%
	White^d	492	43.1%	47.8%
