| INTRODUCTION | 1 |
| METHODS | 1 |
| PERMISSION STATUS AND RESPONSE RATES | 2 |
| RESULTS | 3 |
| PARTICIPANT CHARACTERISTICS | 3 |
| Table 1: Demographic characteristics of participating students | 3 |
| Table 2: Percentage of middle school students who had parents or other adults in the home serving on active duty in the military..... | 4 |
| Table 3: Percentage of middle school students who qualified for or received free and reduced lunch at school..... | 5 |
| Table 4: Percentage of middle school students who made mostly A's or B's in school during the 12 months before the survey | 6 |
| Table 5: Percentage of middle school students whose parents or other adults in their family asked where they were going or who they would be with | 7 |
| SAFETY | 8 |
| Table 6: Percentage of middle school students who rarely or never wore a bicycle helmet | 8 |
| Table 7: Percentage of middle school students who rarely or never wore a seat belt when riding in a car driven by someone else | 9 |
| VIOLENCE-RELATED BEHAVIORS | 10 |
| Table 8: Percentage of middle school students who carried a weapon on school property during the 12 months before the survey | 10 |
| Table 9: Percentage of middle school students who were threatened or injured by someone with a weapon on school property during the 12 months before the survey | 11 |
| Table 10: Percentage of middle school students who were in a physical fight during the 12 months before the survey..... | 12 |
| Table 11: Percentage of middle school students who were in a physical fight on school property during the 12 months before the survey..... | 13 |
| Table 12: Percentage of middle school students who were bullied on school property during the 12 months before the survey | 14 |
| Table 13: Percentage of middle school students who were ever electronically bullied during the 12 months before the survey | 15 |
| Table 14: Percentage of middle school students who did not go to school because they felt unsafe at school or on their way to or from school on at least one day during the 30 days before the survey | 16 |
| Table 15: Percentage of middle school students who ever felt safe and secure at school | 17 |
| Table 16: Percentage of middle school students who have ever been physically forced to have sexual intercourse when they did not want to..... | 18 |
| Table 17: Percentage of middle school students who have ever been hit, beaten, kicked, or physically hurt in any way by an adult..... | 19 |
| Table 18: Percentage of middle school students who have ever been sworn at, insulted by, or put down by an adult | 20 |
| Table 19: Percentage of middle school students who have ever seen or heard adults in their home slap, hit, kick, punch, or beat each other | 21 |

| | |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|
| EMOTIONAL HEALTH | 22 |
| Table 20: Percentage of middle school students who felt sad or hopeless almost every day for two or more weeks in a row | 22 |
| Table 21: Percentage of middle school students who ever seriously considered killing themselves . | 23 |
| Table 22: Percentage of middle school students who ever made a plan about how they would kill themselves | 24 |
| Table 23: Percentage of middle school students who ever tried killing themselves | 25 |
| Table 24: Percentage of middle school students who have ever done something to purposely hurt themselves without wanting to die, such as cutting or burning themselves on purpose..... | 26 |
| Table 25: Percentage of middle school students who ever lived with someone who was depressed, mentally ill, or suicidal | 27 |
| Table 26: Percentage of middle school students who have ever gotten any kind of help they need when they feel sad, empty, hopeless, angry, or anxious | 28 |
| TOBACCO USE | 29 |
| Table 27: Percentage of middle school students who ever smoked cigarettes | 29 |
| Table 28: Percentage of middle school students who smoked a cigarette for the first time before age 11 years..... | 30 |
| Table 29: Percentage of middle school students who smoked cigarettes during the 30 days before the survey | 31 |
| Table 30: Percentage of middle school students who used smokeless tobacco during the 30 days before the survey..... | 32 |
| Table 31: Percentage of middle school students who smoked cigars during the 30 days before the survey..... | 33 |
| Table 32: Percentage of middle school students who used tobacco during the 30 days before the survey..... | 34 |
| ELECTRONIC VAPOR PRODUCT USE..... | 35 |
| Table 33: Percentage of middle school students who ever used electronic vapor products | 35 |
| Table 34: Percentage of middle school students who used electronic vapor products during the 30 days before the survey | 36 |
| Table 35: Percentage of middle school students who tried their first electronic vapor product before age 11 years..... | 37 |
| Table 36: Percentage of middle school students who got their own electronic vapor products by buying them in a store during the 30 days before the survey | 38 |
| ALCOHOL USE | 39 |
| Table 37: Percentage of middle school students who ever drank alcohol..... | 39 |
| Table 38: Percentage of middle school students who drank alcohol for the first time before age 11 years..... | 40 |
| Table 39: Percentage of middle school students who drank alcohol during the 30 days before the survey..... | 41 |
| Table 40: Percentage of middle school students who ever rode in a car or other vehicle driven by someone who had been drinking alcohol | 42 |
| MARIJUANA USE | 43 |
| Table 41: Percentage of middle school students who ever used marijuana..... | 43 |
| Table 42: Percentage of middle school students who tried marijuana for the first time before age 11 years | 44 |
| Table 43: Percentage of middle school students who used marijuana during the 30 days before the survey..... | 45 |

| | |

| Table 44: Percentage of middle school students who usually used marijuana by different methods during the 30 days before the survey..... | 46 |
| Table 45: Percentage of middle school students who ever rode in a car or other vehicle driven by someone using marijuana | 47 |
| OTHER DRUG USE..... | 48 |
| Table 46: Percentage of middle school students who ever used cocaine..... | 48 |
| Table 47: Percentage of middle school students who ever used inhalants | 49 |
| Table 48: Percentage of middle school students who ever used heroin | 50 |
| Table 49: Percentage of middle school students who ever used methamphetamines | 51 |
| Table 50: Percentage of middle school students who ever used ecstasy | 52 |
| Table 51: Percentage of middle school students who ever used synthetic marijuana | 53 |
| Table 52: Percentage of middle school students who ever took prescription pain medication without a doctor’s prescription..... | 54 |
| Table 53: Percentage of middle school students who ever lived with someone who was a problem drinker, alcoholic, or abused street or prescription drugs | 55 |
| DIET..... | 56 |
| Table 54: Percentage of middle school students who did not eat breakfast during the 7 days before the survey | 56 |
| Table 55: Percentage of middle school students who ate breakfast all 7 days during the 7 days before the survey..... | 57 |
| Table 56: Percentage of middle school students who go hungry because there is not enough food in the house during the 30 days before the survey..... | 58 |
| Table 57: Percentage of middle school students who visited a dentist during the 12 months before the survey | 59 |
| PHYSICAL ACTIVITY | 60 |
| Table 58: Percentage of middle school students who did not participate in at least 60 minutes of physical activity on any day during the 7 days before the survey..... | 60 |
| Table 59: Percentage of middle school students who were physically active at least 60 minutes/day on 5 or more days during the 7 days before the survey | 61 |
| Table 60: Percentage of middle school students who were physically active at least 60 minutes/day on all 7 days before the survey..... | 62 |
| Table 61: Percentage of middle school students who watched TV, played video or computer games or used a computer for 3 or more hours/day..... | 63 |
| Table 62: Percentage of middle school students who attended physical education (PE) classes | 64 |
| Table 63: Percentage of middle school students who attended physical education (PE) classes daily | 65 |
| Table 64: Percentage of middle school students who played on at least one sports team run by their school or community groups during the 12 months before the survey..... | 66 |
| Table 65: Percentage of middle school students who had a concussion from playing a sport or being physically active during the 12 months before the survey..... | 67 |
| Table 66: Percentage of middle school students who had 9 or more hours of sleep on an average school night..... | 68 |

INTRODUCTION

Priority health risk behaviors (i.e. preventable behaviors that contribute to the leading causes of morbidity and mortality) are often established during childhood and adolescence and extend into adulthood. Ongoing surveillance of youth risk behaviors is critical for the design, implementation, and evaluation of public health interventions to improve adolescent health. The Youth Risk Behavior Survey (YRBS) is a national surveillance system that was established in 1991 by the Centers for Disease Control and Prevention (CDC) to monitor the prevalence of health risk behaviors among youth. YRBS data are routinely collected on high school students, but only a few states collect data in middle schools. The Nevada Middle School YRBS is biennial, anonymous and voluntary survey of students in 6th through 8th grade in regular public, charter, and alternative schools. Students self-report their behaviors in five major areas of health that directly lead to morbidity and mortality, these include:

- 1) Behaviors that contribute to unintentional injuries and violence;
- 2) Tobacco use;
- 3) Alcohol and other drug use;
- 4) Unhealthy dietary behaviors; and
- 5) Physical inactivity.

The 2017 Nevada Middle School YRBS provides statewide data to assess priority health-risk behaviors among middle school students; measure progress toward achieving national health objectives for *Healthy People 2020* and other program and policy indicators; and evaluate the impact of school and community interventions at the national, state, and local level. It is our intention that these data will be used by education and health professionals, policy makers, community members, and researchers to improve the health of Nevada's middle school students. **This report focuses on 2017 YRBS data from Clark County Middle Schools (62 Middle Schools and 2,137 students).**

METHODS

Sampling, Weighting, and Analysis

The 2017 Nevada YRBS sampling plan was designed to ensure that every eligible student had an equal chance of selection. A two-stage (region and classroom) random cluster sampling design was used to produce a representative sample of students in grades 6-8 (all Nevada regular public, charter, and alternative middle schools). In order to provide regional data that represent all counties in the state, the first sampling stage grouped all 17 school districts into 8 regions that generally reflect the prevention coalition structure. The regional grouping also helped ensure that individual schools could not be identified. In the second sampling stage, classes were selected within schools with the probability based on a required margin of error in the sample size for each region. Intact classes of either all second period or all required English courses were randomly selected from each school. The questionnaire was administered to all students in sampled classes from February to May, 2017.

The 2017 Nevada YRBS data were weighted based on the sex, race/ethnicity, and grade level of students in each region. The weighting process ensured that the estimates accurately represent the entire student population in each region and the state as a whole. Non-response or poor sampling procedures can result in a sample that is not a representative subset of the population; therefore un-weighted results from these samples may not accurately reflect student behaviors and could be misleading. This report only displays weighted results.

Permission Status and Response Rates

Parental permission is required for YRBS participation. Nevada school districts have two types of parental permission: 1) active and 2) passive. *Active parental permission* means the students must return a signed permission form indicating their parent or guardian's approval for participation in the survey. *Passive parental permission* means the students take a permission form home and return it only if their parent or guardian does not want them to participate in the survey. The type of permission status varies by district based on school district policy. Active permission requires more time and resources and may reduce the number of students that participate in the survey. In 2017, Clark County used active parental permission and had an overall response rate (a combination of school and students response rates) of 60.7%.

RESULTS

Participant Characteristics

Table 1: Demographic characteristics of participating students — Clark County, Youth Risk Behavior Survey, 2017

| | | Student Participants ^a | Unweighted % | Weighted % |
|-----------------------|-----------------------------------------------------|-----------------------------------|--------------|------------|
| Total | | 2137 | 100.00% | 100.00% |
