INTRODUCTION..... 1

METHODS 1

PERMISSION STATUS AND RESPONSE RATES..... 2

RESULTS 4

PARTICIPANT CHARACTERISTICS 4

 Table 3: Demographic characteristics of participating students 4

 Table 4: Percentage of middle school students who had parents or other adults in the home serving on active duty in the military..... 5

 Table 5: Percentage of middle school students who qualified for or received free or reduced price lunches at school..... 6

 Table 6: Percentage of middle school students who made mostly A's or B's in school during the 12 months before the survey 7

VIOLENCE-RELATED BEHAVIORS..... 8

 Table 7: Percentage of middle school students who were threatened or injured by someone with a weapon on school property during the 12 months before the survey 8

 Table 8: Percentage of middle school students who were in a physical fight on school property during the 12 months before the survey..... 9

 Table 9: Percentage of middle school students who were bullied on school property during the 12 months before the survey 10

 Table 10: Percentage of middle school students who were electronically bullied during the 12 months before the survey 11

 Table 11: Percentage of middle school students who did not go to school because they felt unsafe at school or on their way to or from school during the 30 days before the survey..... 12

ADVERSE CHILDHOOD EXPERIENCES..... 13

 Table 12: Percentage of middle school students who have ever been hit, beaten, kicked, or physically hurt in any way by an adult..... 13

 Table 13: Percentage of middle school students who were ever physically forced to have sexual intercourse when they did not want to 14

 Table 14: Percentage of middle school students who have ever been sworn at, insulted by, or put down by an adult in their home 15

 Table 15: Percentage of middle school students who have ever seen or heard adults in their home slap, hit, kick, punch, or beat each other up 16

 Table 16: Percentage of middle school students who ever lived with someone who was depressed, mentally ill, or suicidal 17

 Table 17: Percentage of middle school students who ever lived with someone who was a problem drinker, alcoholic, or abused street or prescription drugs..... 18

EMOTIONAL HEALTH..... 19

 Table 18: Percentage of middle school students who felt sad or hopeless almost every day for two or more weeks in a row during the 12 months before the survey 19

 Table 19: Percentage of middle school students who seriously considered killing themselves during the 12 months before the survey 20

Table 20: Percentage of middle school students who made a plan about how they would kill themselves during the 12 months before the survey 21

Table 21: Percentage of middle school students who tried killing themselves during the 12 months before the survey 22

Table 22: Percentage of middle school students who have done something to purposely hurt themselves without wanting to die, such as cutting or burning themselves on purpose during the 12 months before the survey 23

Table 23: Percentage of middle school students who ever got the kind help they need when they felt sad, empty, hopeless, angry, or anxious 24

TOBACCO USE 25

Table 24: Percentage of middle school students who ever smoked cigarettes 25

Table 25: Percentage of middle school students who smoked cigarettes for the first time before age 11 years..... 26

Table 26: Percentage of middle school students who smoked cigarettes during the 30 days before the survey 27

Table 27: Percentage of middle school students who used smokeless tobacco during the 30 days before the survey 28

ELECTRONIC VAPOR PRODUCT USE 29

Table 28: Percentage of middle school students who ever used electronic vapor products 29

Table 29: Percentage of middle school students who used electronic vapor products during the 30 days before the survey 30

Table 30: Percentage of middle school students who tried electronic vapor products for the first time before age 11 years..... 31

Table 31: Percentage of middle school students who usually obtained their own electronic vapor products by buying them in a store or gas station during the 30 days before the survey 32

ALCOHOL USE 33

Table 32: Percentage of middle school students who ever drank alcohol 33

Table 33: Percentage of middle school students who drank alcohol for the first time before age 11 years 34

Table 34: Percentage of middle school students who had at least one drink of alcohol during the 30 days before the survey 35

Table 35: Percentage of middle school students who ever rode in a car or other vehicle driven by someone who had been drinking alcohol..... 36

MARIJUANA USE 37

Table 36: Percentage of middle school students who ever used marijuana 37

Table 37: Percentage of middle school students who tried marijuana for the first time before age 11 years 38

Table 38: Percentage of middle school students who used marijuana during the 30 days before the survey 39

Table 39: Percentage of middle school students who usually used marijuana by different methods during the 30 days before the survey..... 40

Table 40: Percentage of middle school students who ever rode in a car or other vehicle driven by someone using marijuana..... 41

OTHER DRUG USE..... 42

Table 41: Percentage of middle school students who ever used cocaine 42

Table 42: Percentage of middle school students who ever used heroin..... 43

Table 43: Percentage of middle school students who ever used methamphetamines 44

Table 44: Percentage of middle school students who ever used ecstasy 45

Table 45: Percentage of middle school students who ever used synthetic marijuana 46

Table 46: Percentage of middle school students who ever took prescription pain medicine without a doctor’s prescription or differently than prescribed 47

Table 47: Percentage of middle school students who took prescription pain medicine without a doctor’s prescription or differently than prescribed during the 30 days before the survey..... 48

SUBSTANCE USE – PERCEPTION OF RISK 49

Table 48: Percentage of middle school students who reported that they think people risk harming themselves physically or in other ways when they have five or more drinks of an alcoholic beverage once or twice a week..... 49

Table 49: Percentage of middle school students who reported that they think people risk harming themselves physically or in other ways if they smoke one or more packs of cigarettes per day 50

Table 50: Percentage of middle school students who reported that they think people risk harming themselves physically or in other ways if they smoke marijuana once or twice a week..... 51

Table 51: Percentage of middle school students who reported that they think people risk harming themselves physically or in other ways if they use prescription drugs that are not prescribed to them 52

SUBSTANCE USE – PERCEPTION OF PARENT DISAPPROVAL 53

Table 52: Percentage of middle school students who reported that their parents feel it would be wrong for them to have one or two drinks of an alcoholic beverage nearly every day..... 53

Table 53: Percentage of middle school students who reported that their parents feel it would be wrong for them to smoke tobacco 54

Table 54: Percentage of middle school students who reported that their parents feel it would be wrong for them to smoke marijuana 55

PHYSICAL ACTIVITY 61

Table 60: Percentage of middle school students who did not participate in at least 60 minutes of physical activity on any day during the 7 days before the survey 61

Table 61: Percentage of middle school students who were physically active at least 60 minutes/day on 5 or more days during the 7 days before the survey 62

Table 62: Percentage of middle school students who were physically active at least 60 minutes/day on all 7 days before the survey 63

Table 63: Percentage of middle school students who watched TV, played video or computer games, or used a computer for 3 or more hours per day 64

Table 64: Percentage of middle school students who attended physical education (PE) classes on one or more days in an average school week 65

Table 65: Percentage of middle school students who attended physical education (PE) classes daily 66

Table 66: Percentage of middle school students who played on at least one sports team run by their school or community groups during the 12 months before the survey 67

Table 67: Percentage of middle school students who had 9 or more hours of sleep on an average school night 68

RESILIENCY FACTORS 69

Table 68: Percentage of middle school students who talked to their parents or other adults in their home about their problems 69

Table 69: Percentage of middle school students who talked to their parents about what is right and wrong 70

Table 70: Percentage of middle school students who felt comfortable talking to their parents about personal matters 71

Table 71: Percentage of middle school students who felt close to people at their school 72

Table 72: Percentage of middle school students who were happy to be at their school 73

Table 73: Percentage of middle school students who reported that the teachers at their school treat students fairly 74

OTHER 75

Table 74: Percentage of middle school students went hungry because there was not enough food in the house during the 30 days before the survey 75

Table 75: Percentage of middle school students who visited a dentist during the 12 months before the survey 76

INTRODUCTION

Priority health risk behaviors (i.e. preventable behaviors that contribute to the leading causes of morbidity and mortality) are often established during childhood and adolescence and extend into adulthood. Ongoing surveillance of youth risk behaviors is critical for the design, implementation, and evaluation of public health interventions to improve adolescent health. The Youth Risk Behavior Survey (YRBS) is a national surveillance system that was established in 1991 by the Centers for Disease Control and Prevention (CDC) to monitor the prevalence of health risk behaviors among youth. YRBS data are routinely collected on high school students, but only a few states collect data in middle schools. The Nevada Middle School YRBS is biennial, anonymous and voluntary survey of students in 6th through 8th grade in regular public, charter, and alternative schools. Students self-report their behaviors in five major areas of health that directly lead to morbidity and mortality, these include:

- 1) Behaviors that contribute to unintentional injuries and violence;
- 2) Tobacco use;
- 3) Alcohol and other drug use;
- 4) Unhealthy dietary behaviors; and
- 5) Physical inactivity.

The Nevada Division of Public and Behavioral Health contracted with the University of Nevada, Reno, School of Community Health Sciences to conduct the YRBS in all middle schools throughout the state. The 2019 Nevada Middle School YRBS provides statewide data to assess priority health-risk behaviors among middle school students; measure progress toward achieving national health objectives for *Healthy People 2020* and other program and policy indicators; and evaluate the impact of school and community interventions at the national, state, and local level. It is our intention that these data will be used by education and health professionals, policy makers, community members, and researchers to improve the health of Nevada's middle school students.

METHODS

Sampling, Weighting, and Analysis

The 2019 Nevada YRBS sampling plan was designed to ensure that every eligible student had an equal chance of selection. A random cluster sample design was used to produce a representative sample of students in grades 6-8 (all Nevada regular public, charter, and alternative middle schools). In order to provide regional data that represent all counties in the state, all 17 school districts were grouped into 8 regions that generally reflect the prevention coalition structure (Table 1). The regional grouping also helped ensure that individual schools could not be identified. Next, classes were randomly selected within every school with the probability based on a required margin of error in the sample size for each region. Intact classes of either all second period or all required English courses were randomly selected from each school. The questionnaire was administered to all students in sampled classes from February to May, 2019.

The 2019 Nevada YRBS data were weighted based on the sex, race/ethnicity, and grade level of students in each region. The weighting process ensured that the estimates accurately represent the entire student population in each region and the state as a whole. Non-response or poor sampling procedures can result in a sample that is not a representative subset of the population; therefore un-weighted results from these samples may not accurately reflect student behaviors and could be misleading. This report only displays weighted results.

Table 1: 2017 YRBS sampling regions and prevention coalition structure

| Region | School District | # Schools | Nevada Statewide Coalition Partnership |
|--------|---|-----------|---|
| 1 | Carson City | 2 | Partnership Carson City |
| 2 | Douglas County | 2 | Partnership of Community Resources |
| 3 | Elko County White Pine County Eureka County | 10 | Pace Coalition |
| 4 | Churchill County Humboldt County Pershing County Lander County | 5 | Churchill Community Coalition Frontier Community Coalition |
| 5 | Lyon County Mineral County Storey County | 7 | Healthy Communities Coalition |
| 6 | Esmeralda County Nye County Lincoln County | 10 | Nye Communities Coalition |
| 7 | Washoe County | 18 | Join Together Northern Nevada |
| 8 | Clark County | 63 | Care Coalition PACT Coalition |

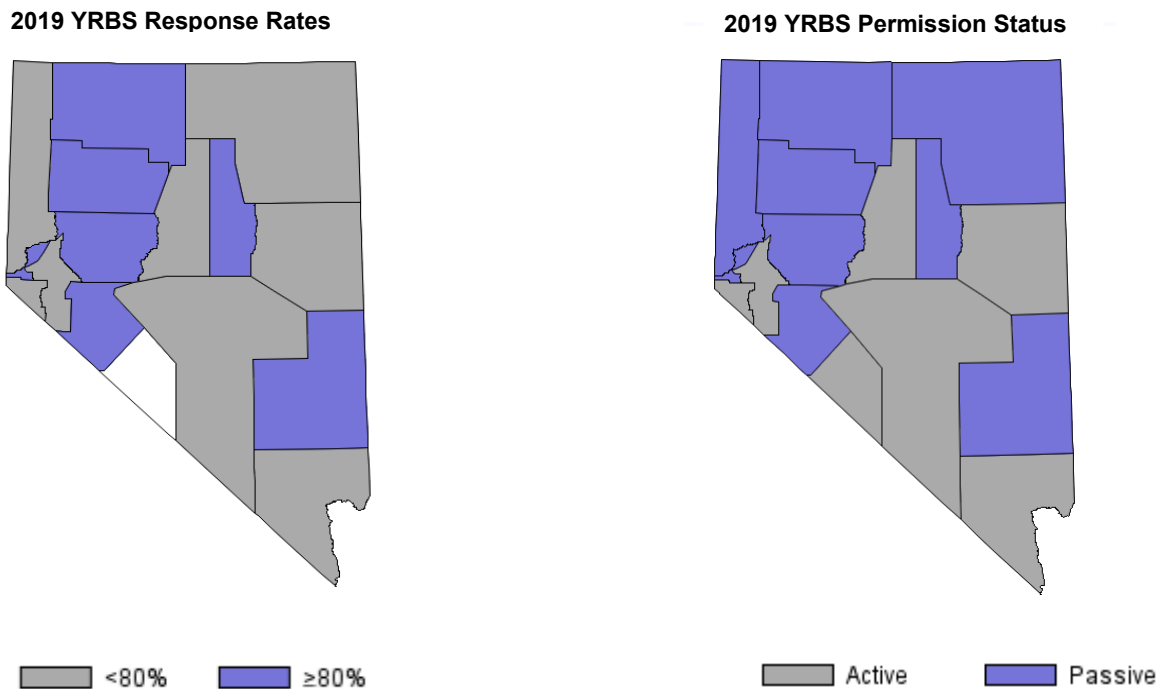

Permission Status and Response Rates

Parental permission is required for YRBS participation. Nevada school districts have two types of parental permission: 1) active and 2) passive. *Active parental permission* means the students must return a signed permission form indicating their parent or guardian’s approval for participation in the survey. *Passive parental permission* means the students take a permission form home and return it only if their parent or guardian does not want them to participate in the survey. The type of permission status varies by district based on school district policy. Active permission requires more time and resources and may reduce the number of students that participate in the survey. Only one school district (Esmeralda County) did not participate in the 2019 Middle School YRBS and only 6 schools statewide did not participate (81 potential respondents). Overall, 5,341 youth from 113 schools completed the survey. Overall response rates (a combination of school and student participation) were generally higher in the school districts with passive parental permission (Table 2 and Figure 1).

Table 2: 2017 and 2019 YRBS response rates by school district

| District | 2017 YRBS Response Rate | 2019 YRBS Response Rate | Permission |
|-----------------------------------|-------------------------|-------------------------|------------|
| Carson City School District | 93.2% | 90.5% | Passive |
| Churchill County School District | 75.1% | 80.5% | Passive |
| Clark County School District | 60.7% | 60.7% | Active |
| Douglas County School District | 47.1% | 54.2% | Active |
| Elko County School District | 84.8% | 70.3% | Passive |
| Esmeralda County School District | 33.3% | --- | Active |
| Eureka County School District | 91.3% | 100.0% | Passive |
| Humboldt County School District | 88.9% | 90.1% | Passive |
| Lander County School District | 87.6% | 72.9% | Active |
| Lincoln County School District | 93.8% | 92.1% | Passive |
| Lyon County School District | 69.5% | 66.1% | Active |
| Mineral County School District | 42.9% | 92.9% | Active |
| Nye County School District | 57.2% | 72.5% | Active |
| Pershing County School District | 92.5% | 97.6% | Passive |
| Storey County School District | 77.3% | 100.0% | Passive |
| Washoe County School District | 73.0% | 75.1% | Passive |
| White Pine County School District | 72.6% | 57.5% | Active |
| Overall Response Rate | 65.8% | 67.2% | |
